

Terrestrial Isopods

A CAROLINA™ CareSheet

Immediate Care and Handling

As soon as your isopods (pill bugs or sow bugs) arrive, open the shipping container and check their condition. The isopods come in a damp paper towel to provide the humidity they require. After examining, close the container and prepare a habitat using any available plastic container with a lid. Punch air holes in the lid, mist inside the container with room-

Problems? We hope not, but if so contact us. We want you to have a good experience.
