**6 5 6**

This is the percentage of students in a given school year who enrolled after October 1st compared to those who enrolled by October 1st. The formula is  $A / B$ , where:

A = the number of students first enrolled at school after October 1st

B = the number of students enrolled on October 1st

**5 4**

This is the percentage of students in a given school year who were enrolled at the same school through most of the school year compared to all students enrolled on October 1st. The formula used is  $A / B$ , where:

A = number of students enrolled in the same school through most of the school year ( $\geq 145$  school days)

B = the number of students enrolled on October 1st

School Notes: Rosa Parks and Kairos PDX are year round schools, so October membership may not be an appropriate denominator for their Late Enrollee Ratio
